Prima
Nature's Way—
SURFACE Tension, that force which causes water to cleanse, is the sole principle of the PRIMA Washer. It means quick, economical washing of clothes without injuring them in any way whatever. The PRIMA does your washing in half the time required by ordinary machines. It's the machine you should have—the machine you will have when you get acquainted with it.

THE Ohio does not use an electrically driven brush. This permits high speed in the motor and a powerful suction. At the same time it provides a slowly moving brush which picks up lint, threads and hair without injuring the rug.
OHIO ELECTRIC CLEANER

This is only one of the six things the Ohio does better. Come in today and see for yourself or ask us for a home demonstration.
